After seeing many e-books, articles, and blogs on Mein Kampf in English, I wanted to find the most comprehensive source of content in my own language. I found it was not easy to obtain this file for free. People were able to obtain the Malayalam version of Mein Kampf through buying it at bookstores or getting hold of a pirated copy. This is with the understanding that not all books are available for free. With that in mind, I searched online and found a few websites providing Mein Kampf in PDF format for download. The only issue was - they were in Malayalam and not in English. Mein Kampf was originally published in German, and the original also doesn't have a translation into any other language. I hoped to be able to get a Malayalam version of the book through a torrent site, but this would have been illegal. I could not understand why there were no free online translations of the book. If anyone could help me with this, it would be greatly appreciated.

Long-existing controversies about the book have obscured its true history and context. For example, in early 2015, a right-wing bookshop in the historically Jewish neighborhood of the Prenzlauer Berg in Berlin came under attack from anti-Semitic demonstrators who claimed that the store was "spreading Nazi ideology." The police responded with a raid on the bookstore, and two employees were arrested. The store's owners charged that the raid amounted to an attack on freedom of speech and expression, but they were ultimately fined for disseminating Nazi propaganda. The controversy did not hinge on whether the Nazis themselves would have regarded Mein Kampf as literally and factually accurate: although Hitler made some edits to later editions of Mein Kampf, he never disavowed its contents or his earlier beliefs. But for most Germans interested in Mein Kampf, the issue is whether reading Hitler's creed now constitutes an endorsement of his ideas, or whether it is possible to read or study the book without endorsing its content. The German news media almost never mention the title of the book, and one who reads it is said to "read Hitler." Moreover, although Hitler wrote the first part of Mein Kampf while he was in Landsberg prison, he wrote his second book, "The Triumph of Will" (1935), and the third part of Mein Kampf, after he became Chancellor and Führer. These final parts of the book, while written in his own hand, were dictated to his personal secretary. They deal with specific German foreign policy decisions, and also discuss the military preparedness of the Reich. Thus to read Mein Kampf is to gain insight into Hitler's thinking about issues such as Austria, Czechoslovakia and Poland which led to World War II.
